Oxygen Tubing

Argyle™ Bubble Tubing

- Universal 'bubble' tubing in medical grade PVC.
- Bubbles at every 90cm.
- Available in conductive and non-conductive versions.
- Low memory prevents twisting and kinking.
- Clean-packed.
- Latex free.

Argyle™ Oxygen Bubble Tubing

Code	Description	QTY / Case
8888230201	Non-conductive 3.2mm x 30.5m	1 coil

8888230201

Yankauer Suction Devices

Argyle™ Surgical Suction Yankauers

A comprehensive range of suction cannulas designed to meet every need in the operating room.

Argyle™ Yankauers.

- Complete range of rigid and flexible single use yankauers for suction of fluids.
- Sterile, single use.

Argyle™ mini yankauer for paediatric or dental applications

Code	Description	Vacuum Control	Fr/Ch	Length	QTY / Case
1180113001	No side holes	No	16	16cm	100

Closed Wall Suction Systems

Medi-Vac™ Flex Advantage

Disposable Flexible Liners with Solidifier.

Cardinal Health™ Medi-Vac™ Flex Advantage™ with GelVac makes fluid waste collection even safer and more efficient. This is the only liner that contains GelVac, a solidifier

in a dissolvable pouch that neutralises medical waste into a gel-like substance as waste fluid collects in the system.

- The solidifier is pre-loaded into the liner in a dissolvable pouch-no assembly required
- Solidifier comes into contact with fluid immediately and turns into a gel-like substance
- Solidifier is chlorine-free, resulting in non-toxic incineration
- Not made with natural rubber latex
- Multiple volume option available

65651930PG	Liner 3000cc PPV Flex Advantage with GelVac Solidifier	45

Disposable Flexible Liners

Flex Advantage® disposable flexible liners require no assembly step, as the lids are permanently attached to the liners. This greatly minimizes the risk of infectious medical waste leaking from an improperly sealed canister during handling and transport. Engineered for clinician safety, Flex Advantage® lids contain integrated filters as well as one-way and shut-off valves.

Flex Advantage® disposable liners require the use of a reusable outer canister. Cardinal Health offers various types of reusable outer canisters.

Flex Advantage® disposable liners are also available in kits.

65651-930C

2-620CE	Tube Flex International Tandem	30

Disposable Semirigid Liners

CRD™ disposable liners are easily assembled by snapping the lid onto the liner. Engineered for clinician safety, CRD™ lids contain integrated filters and shut-off valves. The lids also lock into place after assembly in order to minimise the risk of spillage during the transport process.

CRD™ disposable liners require the use of a reusable outer canister. Cardinal Health offers various types of reusable outer canisters, to meet the diverse needs of your facility.

CRD™ disposable liners are also available in kits. For more information, please contact your Cardinal Health sales representative.

3000cc Liner

1500cc Liner

1000cc Liner

Disposable Canisters

Guardian™ Disposable Hard Canisters feature rigid blue lids with an automatic shutoff valve to help prevent cross contamination of regulators and wall vacuum outlets. Its 90° adapters allow tubing to connect at right angles to help prevent kinking and impeded fluid flow. The locking lid encourages the proper disposal of infectious liquid medical waste and enhances worker safety. Lid includes accessory and orthopaedic ports.

SAF-T Pump™ Waste Disposal System

Quickly and safely empties canisters containing infectious liquid medical waste into the sanitary sewer with no pouring required.

- Drains one litre of fluid in just 4 seconds
- Powered by tap water — no moving parts to wear out
- Easy to use — just insert a dip tube into your suction canister, connect the pump and turn it on
- Avoids the added expense of full canister disposal
- Accommodates all Medi-Vac® Suction Canister and liner sizes — basket holds multiple canisters securely
- Provides a closed system when used with Medi-Vac® Canisters
