Biodegradable Nitrile Gloves | Powder-Free

EcoSafe

Biodegradable Nitrile Gloves | Powder-Free

Product Code

GN131171A	XS
GN131171B	S
GN131171C	M
GN131171D	L
GN131171E	XL

Packaging

200 gloves/box,
10 boxes/carton

Key Features and Benefits

-  These gloves are made of non-oxidizing biodegradable nitrile, which reduces the production of small plastic particles (micro-plastics) that may remain in the environment after decomposition.
-  They have been tested according to ASTM D5511 standards and have achieved 91.6% biodegradation within 626 days under the test conditions.
-  They have also been tested according to ASTM D5526 standards and have achieved biodegradation under conditions that are closer to real landfill environments.
-  The gloves meet the food contact safety standards set by the US FDA.

-  Biodegradable
-  Food Grade
-  Not Made with Natural Rubber Latex

Application

-  Aged Care
-  Beauty
-  Dental
-  Food & Agriculture
-  Industrial
-  Life Science
-  Medical
